

THE 2020 CENSUS IS HERE

YOU COUNT

It is important that **every person living in the U.S.**, regardless of age, citizenship or living situation complete the Census. Having a complete count of every person in our community means political representation and money for needed services, including roads, transportation, healthcare, and services for older adults.

CHOOSE HOW YOU RESPOND:

ONLINE

—
Visit [My2020Census.gov](https://my2020census.gov) to complete the Census online.

BY PHONE

—
Call the Census Bureau at (844)330-2020 to complete your Census over the phone.

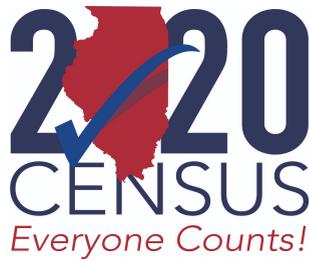

BY MAIL

—
If you have not completed the Census otherwise, you will receive a paper questionnaire in the mail by mid-April.

Answers provided to the Census Bureau are confidential and protected by law.

Call (844)330-2020 or text QUESTION to 987987 for more information.

PROTECT YOURSELF FROM CENSUS FRAUD

The Census Bureau will NOT email you to complete the Census. Do not click on a link in an email that invites you to fill out the Census online.

The Census will NOT ask for your Social Security number, citizenship status, bank information or political affiliation.

You can verify that you have received an actual Census Bureau survey or that an actual Bureau employee is trying to reach you by calling the Bureau at (800)923-8282.

Avoid The Knock!

If you have not responded by late May, a Census Bureau employee will visit your home to collect your responses. Make a plan today to fill out the Census.

Don't Be Left Out!

If you believe you have not been counted in the 2020 Census, go online or call (844)330-2020 to complete the Census for yourself.

**If you'd like help from a local
Census partner, call
AgeOptions at (800)699-9043**
